

# NextGen Payroll & Processing Services

## **Are You Tired of Paying Fees On Top of More Fees?**

In today's competitive market, companies often identify their own contingent/contract labor for specific projects. These workers can be company retirees, friends of workers or ex-employees. In an effort to avoid raising concerns about co-employment issues, companies rely on third-party vendors to house their W-2 employees—thus paying unnecessary markups (plus recruiting and sales fees). Let NextGen payroll this talent pool for significant cost savings!

## **Do the Math!**

The bottom-line reason to choose NextGen as your payrolling provider is cost savings! You can realize an immediate savings of up to \$8,000—\$20,000 per contractor, per year. Those numbers add up quickly—we can help save between .5 and 1 million annually for every 50 consultants!

## **We Are a Quality Provider!**

Our talented and professional HR/ payroll team uses proven procedures allowing NextGen to deliver quality services at a drastically reduced rate.

## **Minority Woman Owned Company**

NextGen is a certified minority woman owned company.

## **Eliminate Risks!**

Our payroll department uses a proven 1099 validation process to reduce the risk of IRS and local agency audits. We validate all contingent labor to be either a W-2 employee of a third-party supplier or prove that they qualify as an independent contractor (1099, IC), we make sure you are compliant with current employment tax laws.

## **Save Time!**

Our full-range of HR services allows you to save valuable time that can be spent on your more important business needs. Saved time equals saved money!
